

CB-FC-4-9/125-GYXTW-8

Vision outdoor 4-core fiber single mode cable

Suitable for long-distance communication and inter-office communication. The two parallel steel wires not only resist tension but also resist lateral pressure, and the optical cable has good mechanical properties. The optical cable has small outer diameter and light weight, which is suitable for construction.

Application : pipeline, overhead.

Technical Specification

Unit Model	CB-FC-4-9/125-GYXTW-8	
Number of fiber cores	2-12	
Diameter (mm)	8.0	
Weight (KG/KM)	62	
Allowable pull	long term	1500
	short term	600
Allowable bending radius	moving	20D
	static	10D
Allowed crushing force	3000
